

Food Technology Students Trip

I would like to take a group of interested Food Technology students to visit the Award Winning Cheese Factory in Putaruru. The Level 3 students have been investigating the necessary preservation mechanisms required to successfully produce Cheese but all Food Technology levels learn about Preservation of food to increase its shelf life.

We will be given the opportunity to taste various cheese varieties produced at the “Over the Moon” factory, listen to an expert cheese maker followed by a guided tour around the premises.

There will be several spare seats in the van so the experience is being offered to all Senior Food Technology students on a ‘first in, first served’ basis.

Please complete the permission form below. Payments can be made to the school office.

Date of Trip: Thursday 18th August

Transport: School van

Departure Time: 9.00 am

Return Time: 3.00 pm

Cost per Student: \$15 for transport
\$ 5 for Taste Talk and Tour

What to Bring: Lunch (or money to purchase lunch)
Drink bottle
Covered shoes

Kind regards
Stevie Gardiner
